

UX Testing + UI Iteration

	User Interface: How could the styling of elements be changed to make a more visually appealing, clear, and space efficient layout? <i>(ex: sizes, colors, fonts, alignment, etc.)</i>	User Experience: What elements of the user experience could be improved to make the puzzle more fun/satisfying? <i>(ex: sounds, hover effects, etc.)</i>	Songs To Add
User 1 Name: <i>Makayla</i>	<ul style="list-style-type: none">The background is crowdedImages Sizes could be smallerFont is boring	<ul style="list-style-type: none">Make the image brighter when hovered overIt's fun alreadyBetter quality images	
User 2 Name: <i>Dori</i>	<ul style="list-style-type: none">The album covers are very appealingMake the modal fit the album that was clicked onThe background is nice	<ul style="list-style-type: none">Higher quality imagesReroll button is funMake the audio longer	<ul style="list-style-type: none">Lets Stay Together - Al GreenWooden Girl - Jonatan Leandoer9619 - Dean Blunt
User 3 Name: <i>Cruz</i>	<ul style="list-style-type: none">The Link To The Full Song Is HelpfulThe descriptions are goodThe background is niceAlbum Covers	<ul style="list-style-type: none">The music looks really goodReroll feature is fun	<ul style="list-style-type: none">Ball w/o you - 21 savageDecide - d4vdC u girl - steve lacy
User 4 Name: <i>Nathan</i>	<ul style="list-style-type: none">The wood details at the topThe options are niceIt looks like a real record store	<ul style="list-style-type: none">Feels like spotifyFont is niceChange the fonts to fit the album	<ul style="list-style-type: none">Play It Off - NellyFeel So numb - Rob ZombieOut Of My Way - lucki
User 5 Name: <i>Danny</i>	<ul style="list-style-type: none">Its striking, patterns and colors or niceThe font is not too distracting, size is good	<ul style="list-style-type: none">The music is well chosenIts very immersive, it feels like your in a record storeThe reroll button is fun	

UI Before Feedback (Screenshot / GIF)

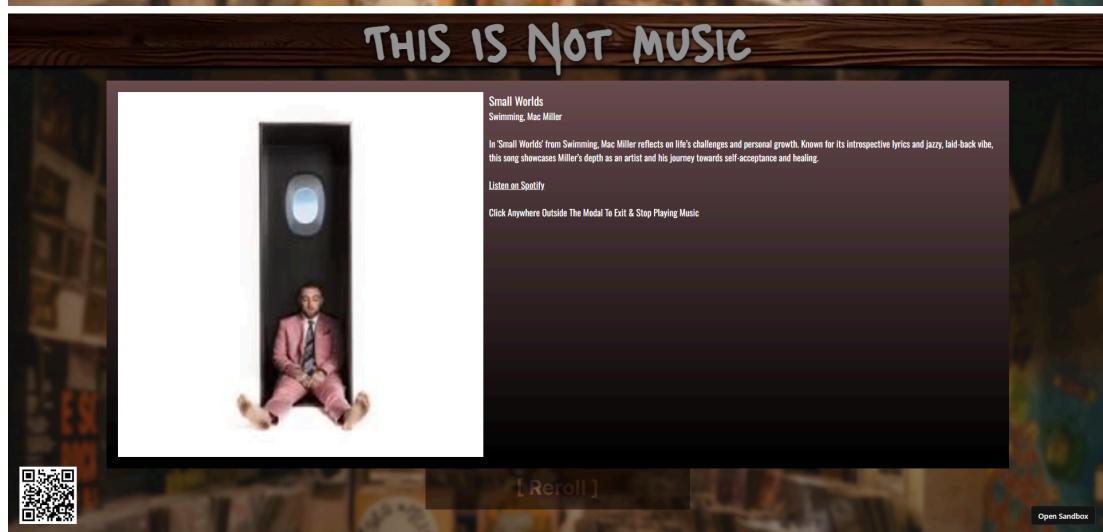

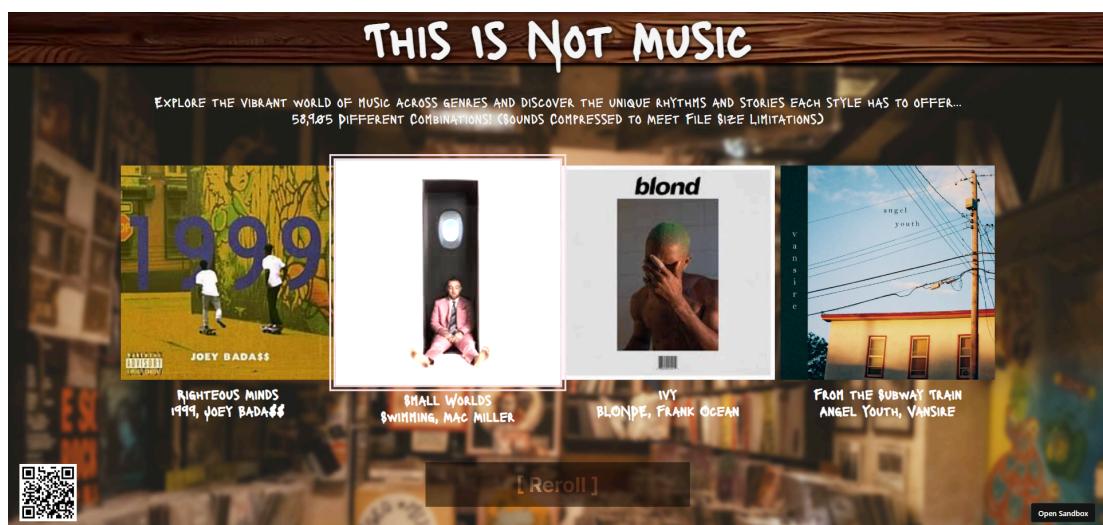

What trends did you identify in your feedback?

- Make the hover effect more interesting
- Add a background for the modals that ties in to the album
- Make images smaller
- Better quality images
-

UI After Feedback (Screenshot / GIF)

What changes did you make to improve your UI?

- Added A Hover Effect That Correlates With The Dominant Color Of The Album Cover
- Added A QR Code for easier mobile access
- Added a gradient in the modal for
- Made the text resize when the window is resized
-
-
